Larysa Skrypkina

Junior Front end Developer

👤 Profile

Junior Front-end developer. I finished a number of GoIT courses and successfully accomplished several pet projects. I have used core JS, React, Redux. I've also mastered HTML5 & CSS3.

I have basic experience with build tools (Webpack, Babel and Gulp), experience with agile methodology and working within Jira and Trello. I have a working knowledge of Adobe Photoshop.

I have experience in conducting communications with English native speakers in both written and verbal form.
